

WNTC to Initiate Program for Improving Interest In Activities at CCT and PSTC

Every Saturday, from 3 to 4 pm, the students of Clarkson and State have a chance to hear a new and different program over WNTC. The program, with Dave Bulman and Jerry Hackett, presents the presidents of the different clubs and student organizations which are on both campuses. Over the air, the presidents tell what each club tries to do, what they stand for, and how a student, wishing to join, may do so.

The program will also feature the presidents of the various fraternities and sororities, explaining the activities of their individual houses and its aims and achievements. This feature should be of particular interest to the freshmen wishing to join a house and not knowing which

one they like best.

Also during the program, a verbal tribute is paid to one of the large universities or colleges throughout the United States. During this tribute, the organizations of an unusual nature, on their campus, are discussed and how, possibly, these organizations would fit into the campus life here in Potsdam.

In addition to all of these parts, Dave or Jerry may toss out some new ideas to improve the school or to make the college life more interesting and enjoyable. Having pep rallies before games in major sports, buying a suit of armor for the Clarkson Knight, and having an Engineering and Activities Day are all ideas which may be discussed, if enough interest is shown in this type of program.

Each week, a record will be given to the first person calling in to the station and identifying a mystery tune.
